TOWN COUNCIL

The meeting of the Council held on Monday last reminded us irresistibly of the children's game "Here we go round the Mulberry bush," with the Mayor, Councillors, Secretary, and even our venerable solicitor joining in the fun, until, breathless and bewildered by their violent gyrations, they had to cease play and get down to business again.

The one solid, logical feature of the whole meeting was that which followed the question raised by the Secretary regarding the rate to be charged the Electric Light Company for the use of the Town's gas.

Having no meter at the well the Secretary explained that it was hard to estimate the amount of gas consumed by the Company, but he stated that Mr. Brown had spoken of requiring at least 50,000 cubic feet per day when the contract was first drawn up.

Coun. Webster enquired what rate the Council had fixed for the gas, and, learning that the contract called for payment at the princely rate of 1 cent per 1000 feet, immediately proposed to ask the Company for the full amount of 50 cents per day.

"Sure," said Coun. Torson, "ask it to him, they can surely afford to pay that whether they have used it or not."

The big debate, however, raged round the vexed question of enforcing the health by-law, following a report from the Secretary that he had inspected the water line and found several properties on the water line that same must be improved or properly vacated.

The Secretary notified the Council of the fact that when the by-law had been suspended earlier in the year, on account of the abnormal demand for houses, on the understanding that money received for rent should be applied for the purpose of improving the houses. This understanding, however, has not been fulfilled, and the Council decided at the last meeting to enforce the by-law.

Coun. Webster objected to the procedure at first on the grounds that severe hardship would be caused the tenants and he was supported in his contention by Coun. Torson, who feelingly exclaimed "It was no fault of the tenants that they were poor." That started the ball, and everybody two-stepped, waltzed, and hesitated round the problem for upwards of half-an-hour, by which time the consciousness of the landlords' obligation to the tenant and the town began to dawn over the horizon of the minds of the two above mentioned Councilors.

Apparently there is no way out of the imbroglio, but to let the by-law take its course and this was agreed to by the Council.

After which Coun. Webster picking up his feet, his pipe and moustache of Ploesedly moved the adjournment which was carried by a standing vote.

Sergt. W. A. Wallas Goes "Home"

Robert McLean was officially notified from Ottawa on Tuesday that Sergt. W. A. Wallas died from gunshot wounds in the thigh, stomach and hand, on September 2nd.

The deceased soldier came to this district from Australia about four years ago, and set up ranching on the Red Deer. Together with Leslie Douglas he

K. C.'s Drive For Army Huts A Worthy Cause

The Rev. Fitzpatrick of Medicine Hat, gave one of the finest speeches on the war and war causes, which has been delivered in Bassano, when he spoke on behalf of the Knights of Columbus \$500,000 appeal for Army Huts, last evening at the Gen Theatre.

The Rev. gentleman anticipated many of the criticisms and objections which have been expressed with regard to this appeal coming, as it does, from a strictly denominational body.

He spoke of the work which was needed at the front and in the camp amongst our soldiers, and briefly outlined what little it was possible to do on account of the scarcity of funds.

The comfort and well-being of our boys is a direct charge and obligation upon every person in the dominion and a duty which no man who has any sense of gratitude can refuse. "Compare," he said "our lot today with our lives before the war, and you will find that in practically every case we are better off. The only persons, indeed who by their anxiety and suffering, realize in any degree the anguish of the war are the wives and dependents of the lads who have gone over there."

On the other hand compare the soldier's lot. In the midst of danger to life and limb, every moment of the day, surrounded by disease, discomfort, suffering and temptations of which we have no adequate idea, all of this he has borne voluntarily and marvellously cheerfully, that his loved ones, his country and the Empire may be free from the taints of Prussianism, which but for their sacrifice would endanger our existence.

Protestant and Catholic alike are fighting side by side—Protestant and Catholic alike, at home, are asked to alleviate the discomfort and distress and temptation as far as lies in their power by contributing to the huts which are erected by both Protestant and Catholic organizations.

No man is asked what church he belongs to over there—everyone is welcome; each receives the ministrations of the little band of helpers whether they are Catholic, Protestant, Jew, or Heretic. The common cause has welded the Anglo-Saxon into a fiercer mould than sect or creed could ever approximate.

The drive starts to-day and it is hoped that Bassano and district will respond willingly and generously to this most worthy cause.

Don't forget the great fact that the Catholic Army Huts are for Catholics alone, they are for every man who stands in need of the comforts they dispense.

Enlisted in a field battery corps at Lethbridge in 1916, and by his alertness and efficiency was promoted to sergeant rank overseas. At the time of his death he was in line for a commission.

He was a brother of Mrs. G. F. Fletcher, who recently returned to Australia when her husband went overseas with the R. N. W. M. P. and has two brothers serving in France with the Anzacs. He was of a somewhat retiring disposition but made a number of friends during his brief sojourn in the district who will sincerely mourn his loss.

The record of an Australian, enlisting in Canada, to fight overseas with Great Britain, shows how indissoluble the links of Empire have been welded.

The Truth.

During the past few months a number of newspaper articles have appeared from time to time giving gross statistics regarding casualties in the Royal Air Force Training Squadrons. This public have therefore received an incorrect impression. The purpose of this letter is to furnish authentic statistics in order that you may be in possession of facts regarding the above question. I should be obliged if you would extend the same co-operation as you have in the past and see that the information given below is placed in the hands of your local newspapers.

For the purpose of preparing statistics, the total number of flights and casualties throughout the entire R. A. F. for a certain period was obtained. For the purpose of comparison, similar statistics were obtained from Training Squadrons operating in England. In the R. A. F. Canada there were 20,255 flights, with 13,566 hours flying, during which there were 26 crashes, 26 of which were admissions to hospitals. The English statistics give 9,000 flights, with 4,000 hours flying during which there were 36 (practically the same number) of crashes 16 of which were admissions to hospital.

From the above figures you will see that for four times as many flights, with three times as many hours in the air, the number of Canadian casualties is practically the same as the number of English casualties.

You will note that the above flights in Canada were approximately 50,000, or 24 times around the globe, thus we have one fatality for 119,260 miles, or for 4 times around the globe. The conclusion to be drawn from the above figures are so evident that no further explanation is required.

The Town Coal Mine is now working at full capacity and the quality of coal being taken out is exceptionally good. The farmers as well as townspeople should lay in their winter supply while the roads are in good shape.

The tickets for the Red Cross Raffle are now on sale and should, at the rate they are being disposed of, be all sold before long. If you have not yet secured yours, you should get a move on right away, for the prize is well worth the winning.

John Morden who has been doing "his bit" over there in a B. C. aeroplane wood mill, was badly injured by sulphuric acid fumes and was invalided home last week. Considering John's long experience in election campaigns we should have imagined him fairly well insured to a sulphurous atmosphere.

Since the commencement of the sale of tickets for the Red Cross Raffle, McKee's Store has been inundated by young ladies who have won the premium offered for the sale of 12 tickets. Mr. McKee states he has some extra special boxes for young ladies from Glen or Majorsville, who care to earn them in this good cause.

On Friday-September 27th the Farmers' Union Hall at Queenstown will stage what promises to be the biggest event of the season in the shape of a Dance and Box Social, the proceeds of which are to be devoted to the purchasing of comforts for boys of the district who are now overseas. The Calgary Military Band will provide the music and it is hoped that every lady will put up a box.

Bassano Chautauque will commence October 31st this year and the programmes will, if anything, be even more interesting and entertaining than last year. True Thrift
Can't Afford
Cheap Clothes

PAY a few dollars more and get clothes that will have better style and shape, even at the finish, than others have at the start. Cheap clothes are extravagant at almost any price. And they handicap your progress by discounting your appearance.

Society Brand Clothes

To secure the maximum service and maintain a prosperous appearance, are the first principles of economy, and those things which assist in doing this should have the first consideration. In clothing this means Society Brand Suits and Overcoats. There is nothing better in fabric, fit and workmanship.

Their tailoring differs from ordinary clothes because it is more scientifically planned and more thoroughly carried out.

The style is built in to stay in as long as the fabric lasts.

Society Brand styles are authentic—this is the core at which to see them. The Society Brand label is the maker's pledge of unqualified satisfaction.
